

ENVIRONMENTAL POLICY

Christopher Contracting Group which includes, CCP&D, CCP&C and Christopher Contracting Pty Ltd are committed to preserving and protecting the environment that we work in by adopting and, when possible exceeding the provisions of the Environmental Protection legislation for each jurisdiction where our projects are located.

In endeavouring to achieve our environmental objectives Christopher Contracting will do the following:

Statutory Compliance

Comply with the statutory requirements of regulating bodies and the Department of Environment and Heritage Protection in Queensland and the Environmental Protection Authority in Western Australia while maintaining our record of no infringement notices issued by either authority.

Promote Awareness

Provide all employees and subcontractors with updated information and training in changes to the environmental management system and work practices.

Environment and the Community

We will continue to work with the local community by implementing environmental initiatives on-site while encouraging local environmental initiatives.

Continual Improvement

We will set specific objectives and targets, monitor progress and communicate the results internally.

Property Management

We will construct, refurbish and manage our buildings in a manner that will minimise any possible negative environmental impacts. By addressing the issue of energy efficiency in our buildings, we will contribute to a reduction of greenhouse gas emissions in line with national guidelines.

Procurement

When purchasing we will favour suppliers and contractors that have adopted beneficial environmental practices. We will source and promote products aimed at minimising environmental impacts of our fleet of plant and vehicles.

Waste Management

We will continue to promote, develop and implement waste prevention, reduction, re-use and recycling on site in a systematic and cost effective manner. We will use regulated waste management contractors to ensure safe management of hazardous and non-hazardous waste off site in accordance with environmental best practice.

Preserving and protecting the environment for future generations is important to Christopher Contracting. We encourage all involved with our business to actively participate in our environmental management system so that we may achieve our ultimate goal of continual improvement.

The Christopher Contracting Environmental Management System is certified to ISO 14001 and is overseen by the QSE Manager who reports to the Company Director.

Signature of Director

25th March 2019

Geoff Christopher
